QUALITY ASSURANCE

Synonymous with quality, our products constantly set new standards for excellence in the industry. The cornerstone of our success, quality - is of paramount importance to us in all our operations. Through a strict regimen of quality checks & controls, we maintain consistency in the quality of raw materials procured, in the quality of our manufacturing work, in packaging, in Shipment & Service, etc. To ensure the highest quality of products, we follow 5 Level

- » Lab Testing – (LT)
- » Pre Production check – (PPC)
- » Initial Production Check – (IPC)
- » During production check – (DUPRO)
- » Final Individual Inspection - (FII)

COMPLIANCE

We can sense that Textile Export Business for Bangladeshi manufacturers is becoming more and more challenging ahead. Our strategy is to meet customer demand through maintaining product quality, on-time delivery, and strong professionalism. Code of Conduct is the Winqlo policy for appropriate business behavior and commitment to its employees, business partners, and other stakeholders. We are fully aware of our Code of Conduct that includes business principles, environmental principles and human rights, and workplace practices. We are taking all steps to ensure that our factories are:

- Compliant with Social standards stipulated in Bangladesh.
- Providing a safe and healthy work environment for all employees.
- Local Environmental standards are met.
- The dignity of Labor and Human Rights are upheld.
- Our factories are therefore ready for compliance audit by Buyers at all times.

DESIGN STUDIO

DIGITAL 3D DESIGN & COLLABORATIVE PRODUCT DEVELOPMENT

The goal is to help designers from the limitations of physical prototyping while addressing industry's priorities of saving time, reducing costs and eliminating waste.

3D allows designers and pattern makers to make more accurate designs in less time. Showcasing with digital samples enables instant feedback and rapid decision making because anyone, anywhere can take part in garment editing and pricing discussions.

A true-to-life 3D sample increases the reliability of the decision. Using a digitally accurate 3D sample makes it easy to validate and finalize the design process across the organization
